There was a time when the perfect chic little dress—no matter what the season—was made in but one color: black. This spring, the little white dress (covered in feminine details like a delicate pom-pom trim and crochet-lace insets) is coming into the spotlight. Chloé's deep V-neck version is pure romance. Pair it with nothing more than a long gold chain and mother-of-pearl earrings.

Cotton voile V-neck dress with pom-pom trim, Chloé, \$1,525, at Chloé Boutique, NYC. Mother-of-pearl-and-14-karat-gold earrings, Whitestreet, \$500. For details, see Shopping Guide.
